DRINK DESCRIPTIONS

HOT DRINKS

Coffee - Our house coffee is Colombian Supremo, regular, or water processed decaf. Fixed just the way you like it. We also usually have a "coffee of the day" brewed so you can sample a different coffee from around the world each day! We have many things we can fix your coffee with. For instance: soy milk, skim milk, 2% milk, whole milk, 1/2 & 1/2, fat-free 1/2 and 1/2, or heavy cream. For sweeteners we have sugar, raw sugar, honey, Sweet-n-low, Splenda, Truvia, or DaVinci flavor in regular or sugar free.

Latté - Our latte is espresso with steamed milk. Add sugar or the sweetener of your choice or any one of our DaVinci flavors to personalize it! The standard milk for this drink is whole, but we can make it with 2%, skim, or soy.

Mocha - A favorite around here! Espresso, steamed milk and chocolate make this our most popular specialty coffee drink. Comes standard with whipped cream, but we'll leave it off if you ask. Also available with skim milk.

Cappuccino - Made with equal parts espresso, milk and finely textured foam, this drink is bold and not to be mistaken for "push button cappuccino." Flavor or sweetener can be added, as well as a cinnamon, nutmeg, or chocolate garnish.

Brevé - This rich and comforting drink is espresso with steamed half & half.

Café au Lait - French for "coffee with milk," this mild beverage is equal parts drip coffee and steamed milk.

Americano - Shots of espresso in hot water, "Americanized" espresso.

Cooper - Shots of espresso floated on top of our house coffee. Want a serious buzz? Have one of these!

Espresso - Coffee Manias special blend served by the one ounce shot straight from our espresso machine.

Hot Chocolate - Made with real milk and real chocolate - real good!

Chai Tea - We use Oregon Chai with a choice of original, or sugar free. Spicy and exotic, this sweet beverage is made with milk, but we can use soy if you prefer.

Hot Cider - Crisp apple cider will warm you up anytime with no caffeine. Also try a "hot apple pie," a combination of cider, caramel sauce, whipped cream and cinnamon!

Steamer - Just like hot chocolate only in any of the many DaVinci flavors we have. No coffee in this drink.

Hot Tea - We have several varieties of Revolution brand tea, with both caffeine and decaf. If your looking for caffeine we have: English breakfast, Earl Grey lavender, Tropical green, and Sweet ginger peach. Decaf: Southern mint, and Golden flowers.
